TESTIMONIALS

Pollution Monitors has provided a very professional service to Southern Water over many years. Particular aspects I like, 1) try to understand clients needs and make service and products to meet these needs; 2) demonstrating a high level of expertise in the field of working.

Gong Yang, Lead Technical Expert Odour Control Engineering Solutions - Southern Water

The company and its employees always give excellent service and are very knowledgeable of the market requirements.

Dave Larner, Siemens Water Technologies

An excellent company providing above average levels of service in all areas.

Mark Stephens, MEICA Manager Costains Mogden STW

Pollution Monitors has supplied H₂S monitoring systems for ERG's odour control systems for the last 10 years and without exception they have all performed to the specified requirements and been delivered to the agreed programme.

James Scott-Bowden, Managing Director, ERG (Air Pollution Control) Ltd
